

Sutton™ Cabinetry

Shown in White thermofoil finish

The clean white lines of the Sutton door style will open up a room visually and can be accented with any color scheme. This versatile door style can decorate a room from urban chic to country casual and its fashionable flexibility will brighten up any room in your home.

Echelon.
CABINETRY

T Thermofoil finish:

White

Sutton Cabinetry – Sutton's 5/8" thick door frames feature thermofoil bonded under heat and pressure and vacuum formed on face and four edges to MDF core. The routed raised panel has low pressure melamine on the back side. Sutton's full overlay door features a double step rolled edge on the inner and outer profile. Square design for all cabinets with slab drawer fronts. Decorative hardware is required.
