Hargrove Cabinetry – Hargrove's 3/4" thick door frames are assembled with five-piece mortise and tenon joints, just like the craftsmanship found in fine furniture. The recessed flat center panel-in-frame is constructed of genuine wood veneer. In addition, Hargrove's standard reveal door features an eased edge profile on the top and bottom of the door frame. The solid slab drawer fronts are 3/4" thick. Decorative hardware is available but not required.
